

**Dynamic G-375 Wall Mounted Germicidal
Air Cleaner**

**Traveling UV Bulb
Traverses Filter Area**

**Each particle exposed
to UV radiation 15
seconds per pass**

**Wall mounted unit delivers 375 cfm ----- super quiet
Generates 100,000 microwatts per square centimeter of coverage
Great Air Cleaner for specific areas such as mailrooms, reception areas, etc.**

Media is low-density fiberglass that traps airborne particles through polarization.

Maintenance merely requires periodic changing of media – probably 2 to 4 months intervals depending on the application. Bulb life is approximately 1 year of continuous operation.

Duct Mounted engineered systems also available on request.
